SWFA Play Off Regulations from Tier 7 to Tier 6 (South Wales Premier League Division 1 East/West)

The following system of play-off matches will be used at the end of each season for any play-off matches.

With only six places for promotion available, if more than six leagues provide nominees who have applied for promotion, play-offs will be necessary.

To try and cover all eventualities, we have made arrangements that will apply in any number of successful clubs from seven to nine. (If six or fewer Leagues nominate clubs for promotion then all will be promoted automatically without the need for any play-off matches)

In all cases, teams qualifying for the play-offs will be ranked in order using the following criteria.

1. That teams will all be ranked by the average number of points won per game played (commonly known as the 'PPG' method). This average to be calculated to three decimal places. If a League decides to operate a split season (in the way that the Cymru Premier League is currently set up) the team's record for the whole season must be taken into account.
2. All Champion Clubs will be ranked in one list and all runner-up clubs will be ranked in a separate list. All Champion Clubs will be ranked higher than all runner-up clubs when the final combined list is produced.
3. Teams being equal on the above will then be separated by the greatest average goal difference i.e., total goals scored in the League minus total goals conceded, divided by the number of League games played.
4. Teams still being equal will be decided according to the club with the greater number of average goals per game scored (i.e., total League goals scored divided by total number of League games played)

The following formats will then be used for any play-off competition

1. In the event of seven teams qualifying

In the event that there are seven potential clubs applying for promotion then the top five clubs ranked in this way will be automatically promoted while the clubs ranked sixth and seventh will play-off in a single match against each other for the last promotion place.

2. In the event of eight teams qualifying

In the event that there are eight potential champions applying for promotion then the top four clubs ranked in this way will be automatically promoted while the club ranked fifth will play against the club ranked eighth and the clubs ranked sixth and seventh will play-off against each other

3. In the event of nine teams qualifying

4. In the event that there are nine potential champions applying for promotion then the top three clubs ranked in this way will be automatically promoted while the remaining clubs will play in play-off matches

a) Team ranked fourth v Team ranked ninth;

b) Team ranked fifth v Team ranked eighth;

c) Team ranked sixth v Team ranked seventh;

All play-off matches in points 1, 2, & 3 above will be single games comprising 90 minutes and if necessary extra time and penalties in accordance with Laws of the Game.

Relegation from Tier 6 (South Wales Premier League Division 1 East/West)

A club relegated from Tier 6 will be placed in Tier 7 League which they were promoted from.

Vacancy

The South Wales Premier League is to comprise of 48, if prior to the commencement of the South Wales Premier League playing season, a vacancy becomes available, the best placed losing team from the PPG Playoff table will be invited to fill the vacancy.
